Our history timeline shows how BIC grew from humble beginnings to the iconic brand we are today. OUR BRANDS

OUR HERITAGE

1944 Marcel Bich (1914-1994) buys a factory in Clichy, France, and sets up business with his partner, Édouard Buffard (1908-1996), as a maker of writing instruments parts.

1950 Marcel Bich, believing in the potential for the ballpoint pen, adapts and improves the ballpoint invented by the Hungarian László Biró, and in December 1950, launches his own ballpoint pen in France under the BIC® brand, a shortened and more memorable version of his own name. The quality and affordable price of the BIC® Cristal® ballpoint pen means that it is quickly adopted by an increasing number of consumers.

1951-1960 Significant geographical expansion in Europe (Belgium, Italy, UK, Netherlands, Austria, Switzerland, Spain and Scandinavia), in the Americas (USA and Brazil), in the Middle East and in Africa.

1972 SOCIÉTÉ BIC is listed on the Paris Stock Exchange.

1973 BIC diversifies its product portfolio and launches the BIC® lighter with an adjustable flame. Its reliability and quality make it an immediate success.

1975 BIC pioneers the “one-piece shaver”.

1993 BIC launches BIC® Evolution®, a graphite and coloring pencil made with recycled materials.

2004 BIC launches its Sustainable Development Program.

2009 BIC acquires 40% of Cello Pens, the leading brand and manufacturer of writing instruments in India.

2012 BIC acquires a site in Tunisia for the construction of a writing instrument facility to expand the Group’s manufacturing footprint and meet consumer demand in this region more effectively.

2015 October: BIC outlines a five-year investment plan to modernize its industrial Stationery facilities. The project includes a 12 million euros investment to expand the Samer production facility (North of France).

December: Cello group sells its remaining stake in Cello Pens to BIC, increasing BIC’s stake in Cello Pens to 100%.

2018 On May 16, 2018, Gonzalve Bich is appointed BIC’s Chief Executive Officer. Pierre Vareille is appointed Chairman of the Board of Directors.

December 2018: BIC sells its subsidiary BIC Sport and refocuses on its core activities: Stationery, Lighters and Shavers.

December 2018: BIC announces the transfer of Haco Industries Kenya Ltd manufacturing facilities and distribution of Stationery, Lighters, and Shavers in East Africa to BIC. This acquisition is in line with BIC’s continued growth strategy in Africa, one of the most promising markets for BIC® products in the world.
OUR COMMON VALUES

Through its 26 self-owned and self-operated factories, BIC ensures that it remains constantly in control of its manufacturing costs. Shared across the Group, the tools, machines and methods developed by BIC guarantee the high quality, reliability and safety of its products.

OUR SHAREHOLDER BASE
Family shareholding, long-term vision
A listed family company since it was first created, BIC has always relied on a stable family shareholding which today owns 45% of the Group’s share capital. This shareholding structure provides strong support for BIC’s long-term vision.

OUR DNA

OUR VISION
We offer inventive and reliable products for everyone, everywhere, every time

SIMPLE
When creating its first product, the BIC® Cristal® ballpen, BIC decided to focus on the essentials: creating a simple, high-quality tool, sold at the right price, to facilitate an everyday gesture that can be used by anyone, no matter where they are in the world;

INVENTIVE
The Group’s development has always followed changes in consumer expectations. Whenever BIC identifies a specific need or desire, its Research & Development teams come up with an ingenious solution to optimize performance;

RELIABLE
The best way to create consumer loyalty is to offer the same high quality throughout the product’s life: more than 2 km of writing from one BIC® Cristal® ball pen, 3,000 ignitions from one BIC® Maxi pocket lighter and 17 shaves from a BIC® Flex 3 shaver;

FOR EVERYONE, EVERYWHERE
With BIC® products, everyone is sure that they will find the best solution at the best price, with a guaranteed level of quality. BIC also decided to position itself close to its consumers, with more than 4 million points of sale, from street kiosks to department stores and e-commerce, in more than 160 countries.

Over the past seventy years, the environment in which BIC operates has undergone considerable change. To name a few, globalization of trade, worldwide demographic growth, scarcity of raw materials and access to education, are some of the major changes that have occurred in our ecosystem. Understanding these evolutionary changes is essential, to ensure that we best meet the expectations of our stakeholders, remain true to our mission and fulfill our commitments over time.

By diversifying our activities and our geographical presence, we expose ourselves to risks that could affect our reputation and performance. It is for this reason that we are committed to an active and dynamic approach to risk management, anticipating and managing risks while turning them into opportunities. For each identified risk, the appropriate section of the Registration Document provides additional information.

OUR RISK MANAGEMENT

- **Bottom-up approach:** self-assessment of significant risks
- **Top-down approach:** Group risks mapping updated every two years. Consolidation carried out by the Risk Management department which delivers a risk Group matrix

- Action plans related to key risks are reviewed and discussed during Board of Directors’ meetings
- Major identified risks are managed and monitored by the Board of Directors
- Each site/department sets up its own dashboards and key indicators to identify and track risks, to assess the means and reduce their impact
- Scheduled update of risk mapping
We expect 2019 Group Net Sales to grow slightly on a comparative basis and Normalized Income from Operations margin to be between 16.5% and 18%.

• In a continued challenging trading environment, overall sales performance may be subject to macro-economic uncertainties and continued competitive pressure in Shavers in the U.S. Growth drivers include distribution gains and success with added-value products.

• Gross Profit will be impacted by increasing raw material costs, the impact of unfavorable foreign exchange trends and the potential impact of sales volumes on cost of production. Normalized Income from Operations will also be affected by additional Brand Support Investments.

BIC WAY

At BIC, we know that the way we produce our products and manage our business really matters. This is why we remain connected to our stakeholders and our environment in order to provide the best responses to current challenges. Since the Group’s creation, our governance guarantees this long-term commitment.

(1) The Board of Directors held a meeting on February 12, 2019 wherein they approved Marie-Aimée Bich-Dufour’s decision to resign from her position of Executive Vice-President, effective as of March 31, 2019. On the recommendation of the Nominations, Governance and CSR Committee, the Board of Directors will submit her appointment as Director to the Shareholders’ Meeting of May 22, 2019, succeeding Marie-Henriette Poinsot, who has resigned. The Board will also submit to the AGM the appointment of Maëlys Castella, succeeding Mario Guevara.

BOARD’S FUNCTIONING

The history of our Group is deeply rooted in an entrepreneurial spirit: we consider entrepreneurship to be in our DNA. It is vitally important for the Board of Directors and the Chief Executive Officer to foster this spirit and keep it alive in our culture for future generations.

BIC has the support of a competent Board of Directors committed to defining and implementing the Group’s strategy and ensuring its functioning. Composed of eleven members, the Board of Directors is supported in its work by three specialized committees; the Audit Committee, the Compensation Committee and, since 2017, the Nominations, Governance and Corporate Social Responsibility (CSR) Committee.

The respective roles of the Board and Chief Executive Officer (CEO) are complementary and clearly defined. It begins with the Board providing a direction and a set of expectations and guidelines to the CEO, who is in charge of constructing the long-term strategy and annual plans to achieve these goals. In turn, the Board reviews these plans, challenges where needed and ultimately approves. Upon approval, the Board joins with the Chief Executive Officer as accountable parties for our Group’s long-term strategy.

The Board also carries the responsibility to monitor performance of the business. Establishing expectations and perimeters is one of the most important functions of the Board, and it is the Chief Executive Officer’s responsibility to provide the necessary information, analysis and insight to inform the Board: macro-economic trends, competitive landscapes, new technologies, acquisition opportunities, SWOT analysis, return on investments (ROI) analysis, etc.
With support from the Nominations, Governance and CSR Committee, the Board strives for a balanced composition adapted to the challenges faced by the Group. The Board is thus composed of men and women, all with high level management experience and/or with expertise in a particular field (such as finance, production and human resources). Moreover, the Board of Directors endeavors to be composed of at least one-third Independent Directors.

Since May 2018, the BIC Group has transformed its governance structure by appointing Gonzalve Bich, as Chief Executive Officer and Pierre Vareille as Chairman of the Board of Directors.

THREE COMMITTEES CHAIRED BY INDEPENDENT DIRECTORS

Each committee is made up of Directors with skills specifically identified to carry out its missions. For each committee, the appropriate section of the Registration Document provides additional information.

**Audit Committee**

The Audit Committee reviews and monitors the relevance of financial information and the reliability of risk management, internal control and Auditors’ appointment process.

**Compensation Committee**

The Compensation Committee makes recommendations on the Compensation Policy for the Chairman of the Board and the Corporate Officers (and on all their compensation and/or benefits elements), on attendance fees and on performance metrics, in collaboration with the Audit Committee.

**Nomination, Governance and CSR Committee**

The Nomination, Governance and CSR Committee regularly examines the composition and functioning of the Board of Directors, proposes solutions to the Board for the succession planning of the Chairman of the Board, the Chief Executive Officer and the Corporate Officers. It reviews the report on social, societal and environmental responsibility as well as the actions taken by the Group in this respect and the progress made against the strategy and commitments taken.
COMPENSATION POLICY: TRANSPARENT AND EXEMPLARY

In addition to the AFEP-MEDEF Code to which the Group refers, the compensation policy for members of the Board of Directors is centered around four principles identical to those applicable for all Group employees: internal equality; the recognition of individual and collective performance (linked to the achievement of key targets that contribute to the business success); competitiveness; and clear communication in relation to compensation policies.

BIC PERFORMANCE

VALUE SHARING:
A BALANCE BETWEEN INVESTMENT AND REDISTRIBUTION

BIC’s business model has always been driven by a fundamental objective: to create long-term value and distribute it fairly to all of our Stakeholders – Consumers, Employees, Local Communities, Customers and Shareholders. Our 2018 results prove that our commitment to sustainable growth is bearing fruit. This philosophy will continue to inspire the Group’s strategy in the years to come.

* Distribution to Stakeholders does not take into account the change in working capital requirements.
